Seeds of Beautiful ANNUAL FLOWERS

HAINES NEWER AND BETTER ASTERS

King Aster

Asters have long held a prominent place in our flower gardens, and with these newer varieties you may be sure of having the finest in your neighborhood.

One packet each of the five New Asters described below for only 45c

SWANSDOWN—When you see an Aster nearly as large as a Peony, perfectly double, and of purest white color, you will have seen the Swansdown, as nearly perfect as Asters can be. The immense flowers are very double, with long, strong stems. Color is the purest white. Plants 2½ feet high. Pkt. 12c.

MAIDEN'S BLUSH—Identical to Swansdown except in color, which is a soft apple blossom pink. Pkt. 12c.

HAINES EVERLASTING—A beautiful flower for winter bouquets. Entirely new. Blooms from July to September. Pick the flowers when three-fourths open, and hang them up with the heads down until dried. 2 feet high. Mixed colors. Pkt. 10c; ⅓ oz. 32c.

LAVENDER GEM—Large fluffy or feathery flowers of great beauty. The coloring is an exquisite silvery white changing to a delicate shade of lavender. Height about 18 in. Pkt. 10c; ⅓ oz. 30c.

SENSATION—The brightest colored Aster I have ever grown. In the new "Sensation" I have a color never seen in Asters, and a flower which is unequalled in quality, size and perfection of bloom. Color is the brightest red ever seen in an Aster, being deep ox-blood. Height is about 18 in., plants well branched, and completely covered with very double flowers, which are 4 in. in diameter. Stems are usually a foot long. Pkt. 12c; ⅓ oz. 42c.

HAINES BEAUTIFUL ASTERS

Mammoth Branching

These magnificent blossoms are very large, often 5 to 6 inches across, and being carried on strong, well-leaved stems, 15 to 16 inches long, are unsurpassed as cut flowers for vases and home decorations. Bloom from the end of August until frost.

Snow White Scarlet Pink
Lavender Purple Mixed

Any of the above. Pkt. 7c; ⅓ oz., 42c; ½ oz. \$1.50.

New California Giants Aster

Huge Fluffy Blossoms Which Resemble Chrysanthemums Almost as Much as Asters

This new class of Asters is second to none in the world today. It is entirely distinct inasmuch as each flower is borne at the end of a long stout stem which is 18 to 24 inches long and has no lateral growths along its entire length. Another feature is their extended period of bloom, the plants remaining in flower much longer than any other Asters I know of. Flowers are unusually large and beautiful with petals tightly curled over the entire flower. My mixture contains many colors ranging from pure white to purple. Pkt. 10c; ⅓ oz., 44c; ½ oz., \$1.30; oz., \$2.45.

Haines Astermum

The Beauty of the Aster—the size of the Chrysanthemum. The Astermums differ from all other of their type in the larger size and greater profusion of their flowers, each plant bearing from 20 to 30 blossoms. These loose, airy heads, made up of very long, wavy, twisted petals, have a distinct feathery effect, resembling the finest Japanese Chrysanthemums. Plants grow 2 feet high. Mixed Pkt., 10c; ⅓ oz., 39c; ½ oz., 95c; oz., \$1.75.

California Giant Aster

New Yellow Aster

American Beauty

An Aster of upright and very robust growth, producing flowers of immense size, generally 4 to 5 inches across, which are borne on very heavy and very long stems, usually 2 feet in length. The flowers are fully double to the center.

Carmine—Pkt., 10c; ⅓ oz., 38c; ½ oz., \$1.44.

Purple—Pkt., 10c; ⅓ oz., 38c; ½ oz., \$1.44.

Lavender—Pkt., 10c; ⅓ oz., 38c; ½ oz., \$1.44.

September Pink—Pkt., 10c; ⅓ oz., 38c; ½ oz., \$1.44.

Mixed Colors—Pkt., 10c; ⅓ oz., 38c; ½ oz., \$1.44.

Haines Mammoth Branching

Haines New Yellow

The form of the double flower is a perfect ball; the quills are close together and of salmon yellow color. The border petals are broad and of a lighter tint, seeming to enclose the flower like an old-fashioned bouquet paper. The flowers are borne upon long, erect stems, excellent for cutting. The plants, about 2 feet high, are of compact, bushy growth and most abundant bloomers. Pkt., 10c; ⅓ oz., 48c.

Haines Snowball

A most distinct and handsome variety equally valuable for pot culture and cut flowers. It is a most profuse bloomer, a single plant often producing as many as 25 to 30 pure snow-white flowers, globular in form and of extraordinary size. About 14 inches tall. Pkt., 8c; ⅓ oz., 34c; ½ oz., 98c.

The King

A magnificent American Aster distinct from all other varieties. Strong sturdy plants, 18 inches high, bearing on long stems massive, double flowers 5 inches across; the petals of which are long, narrow and folded lengthwise, which gives them the appearance of being quilled.

King White—Pkt., 8c; ⅓ oz., 32c; oz., \$1.40.

King Pink—Pkt., 8c; ⅓ oz., 32c; oz., \$1.40.

King Crimson—Pkt., 8c; ⅓ oz., 32c; oz., \$1.40.

King Lavender—Pkt., 8c; ⅓ oz., 32c; oz., \$1.40.

King Purple—Pkt., 8c; ⅓ oz., 32c; oz., \$1.40.

King Mixed—Pkt., 8c; ⅓ oz., 32c; oz., \$1.40.

Queen of the Market

The earliest Aster known, being two to three weeks ahead of most of the other sorts. Of dwarf branching habit; 18 inches high, double handsome flowers. Mixed colors. Pkt. 6c; ⅓ oz., 21c; oz., 99c.

If you desire a fine collection sow the seed, start in a warm room in moist sand. The plants are easy to grow, as they endure the heat and dryness of the living room very well. Haines Finest Mixed. Pkt. 15c; 2 pkts. for 25c.

HAINES NEW MARGUERITE—One great merit of these Carnations is that they commence to flower in about twelve weeks' time from seed. These flowers are of immense size, measuring 3 inches across and are wonderfully free flowering. Mixed Colors. Pkt. 10c; $\frac{1}{8}$ oz. 32c; $\frac{1}{2}$ oz. 95c.

New Bush Morning Glory

This is very novel and creates a sensation wherever it is grown. It is a true Morning Glory, yet it grows in a bush form instead of climbing. Seed sown in the spring will soon form bushy plants 2 feet in diameter and 12 inches high and bloom all the season, the flowers remain open all day and are produced in a great many lovely and rich colors and variations. Pkt. 8c; $\frac{1}{2}$ oz. 21c; oz. 35c.

Haines Climbing Nasturtiums

A very popular flower that grows rapidly; unequalled for covering trellises, etc., or can be used in porch boxes, by letting the long shoots hang down. They are always in bloom and stand heat and drought well.

Haines Giant Flowering

Climbing Mixed

A wonderful diversity of rich colors and new and striking combinations are found in this unequalled mixture. Pkt. 8c; oz. 14c; ¼ lb. 39c.

Dwarf Nasturtiums

Haines Giant Flowering Dwarf Mixed

These Grand New Bedding Nasturtiums are unusually bright colored. They produce in wonderful abundance large flowers of the most gorgeous hues. The colors are very intense, making a sharp diversity of color not to be found in common mixtures. The plants are strong and vigorous, growing very quickly and producing erect, symmetrical bushes, with foliage from light green to deep blue-green. Pkt. 8c; oz. 16c; ¼ lb. 44c.

New Dwarf "Ivy-Leaved"

A new class, with thick, green lobed leaves resembling those of the English Ivy. The flowers, which are borne in the greatest abundance throughout the season, are of medium size, and peculiarly cut and fringed. Mixed colors. Pkt. 6c; ½ oz. 14c; oz. 25c.

New Dwarf Variegated Leaved

New Dwarf—Golden Leaved

Large flowers of the brightest colors ranging from scarlet to deep yellow, with the brightest of orange-yellow foliage. The combination of ornamental foliage and showy flowers, make this a most desirable variety. Pkt. 8c; ½ oz. 20c.

MRS. REDD, Sheffield, Mass., writes: "The Golden Gleam Nasturtiums are perfectly beautiful. Everyone admires them. They look like sunshine in a vase. I will certainly want more next year."

Monkey Flower

Haines Beautiful Nemesis

The Aloha or Good Luck Flower—A Beautiful Flower From Hawaii

This Aloha or Good Luck flower is a very pretty annual which succeeds best in a rather cool place. One of my friends saw this flower in far off Hawaii and brought me my first seeds of it. There it is known as "Aloha," which is their name for "good luck." The plants grow about a foot high, and during the summer are covered with flowers of every known color, with markings and colorings as beautiful as those of the orchid. This flower can be grown in the house, but care must be taken that they do not get too warm. When in the garden out of doors, the best show will be obtained from plants set six inches apart. Pkt. 10c; ⅓ oz. 50c.

Haines Newest and Best Pansies

Just as the violas in separate colors have taken the Rock Gardens by storm, so have their sister plant, the Giant Flowered Pansies, in separate colors become a permanent feature of most gardens. The eight varieties I am growing are all fine colors which may be depended upon.

One packet each of the eight Pansies described below (this does not include the Masterpiece) for only **48c**

GIANT BRIDESMAID. Rose on white ground with dark blotches. Pkt., 7c; $\frac{1}{8}$ oz., 60c.

GIANT CARDINAL. The brightest red color in pansies; the three lower petals are blotched. Pkt., 7c; $\frac{1}{8}$ oz., 50c.

GIANT EMPEROR WILLIAM. Dark navy blue with purple-violet eyes. Pkt., 7c; $\frac{1}{8}$ oz., 50c.

GIANT MERCURY. Deep blackish purple, without any blotches or spots. Pkt., 7c; $\frac{1}{8}$ oz., 55c.

GIANT PEACOCK. Rich ultramarine-blue with white edge and marked in the center with bright rose-carmine tints. Pkt., 7c; $\frac{1}{8}$ oz., 50c.

GIANT RUBY QUEEN. Flowers of immense size, brilliant ruby and scarlet. Pkt., 7c; $\frac{1}{8}$ oz., 50c.

GIANT SNOW QUEEN. The largest and finest white; without blotches. Pkt., 7c; $\frac{1}{8}$ oz., 45c.

GIANT YELLOW PRINCE. Golden yellow, the lower petals blotched. Pkt., 7c; $\frac{1}{8}$ oz., 45c.

Haines Giant Ruffled Masterpiece Pansies

Rich Velvety Flowers of Large Size and Unusual Form. Beautiful and Striking Colors. Strong Bloomer Through a Long Season.

This magnificent new Pansy comes nearer to double Pansies than anything ever introduced under the name. The border of every petal becomes conspicuously crimped and curled in such a fashion that the flowers appear double and the color combinations and variations are very odd and striking. Pkt., 12c; $\frac{1}{8}$ oz., 75c.

Haines Mammoth Butterfly Pansies

Mottled and Striped on a Dark Ground

The flowers are very large, while the colors are mainly those rich, wine-reds. This is my own splendid blend of Pansies, and I consider it one of the finest I have ever seen. Everyone who has seen them in bloom declare there is nothing can equal the wonderful colorings.

Pkt., 10c; $\frac{1}{8}$ oz., 74c.

Steele's New Mastodon Pansy

A Mammoth Pansy and one of the finest ever grown. Nothing like it ever seen before. Flowers come in every known color and show shades never seen in any other strains.

Pkt., 12c; 2 pkts., 20c.

New Red Mixed Pansies

The most brilliant Pansy mixture ever offered, made up from a collection of all the best red and fiery shades.

Pkt., 8c; $\frac{1}{8}$ oz., 48c; $\frac{1}{2}$ oz., \$1.44.

Orchid Flowered Pansies

A mixture of the most surprisingly novel, unique and beautiful color combinations. The colors range in the terra cotta shadings as well as the flesh, orange, rose, pink and lilac. Pkt., 7c; $\frac{1}{8}$ oz., 65c.

Steele's Mastodon

Good Mixed Pansies

A mixture of all varieties, giving a remarkably fine display of colors. Pkt., 7c; $\frac{1}{8}$ oz., 31c; $\frac{1}{2}$ oz., 85c; oz., \$1.50.

Haines New Winter Blooming Pansy

A new race of Pansies so hardy and vigorous that they will bloom right up to the edge of winter, and in fairly mild climates all winter through. Beautiful colors, good sized flowers and profuse bloomers. Pkt., 8c; $\frac{1}{8}$ oz., 45c.

New Swiss Giants Pansies

Pansy—Swiss Giants

A new race of Pansies with unusually bright and varied colorings. Flowers are carried on long, strong stems and are enormous in size—often 3 inches across—perfectly round with overlapping petals, making a heavy, almost duplex flower. Rare and exquisite colors hitherto unknown in a Pansy are to be found in this new variety. I consider Swiss Giants the largest Pansy grown and the most brilliantly colored. Flowers 3 and 5 blotched. A fine bloomer.

ALPENGLOW. Brilliant red. Pkt. 15c.

LAKE OF THUN. Dark blue. Pkt. 15c.

MIXED COLORS. Very choice. Pkt. 15c; 4 pkts., 50c.

Tufted or Sweet Scented Pansies

Tufted or Sweet Scented Pansies

The Hardy Pansy Violet. A hardy, everlasting Pansy which blooms all season

Plants are hardy, of vigorous growth, forming deep-rooted compact clumps, covered by myriads of flowers from spring until frost. Many are as highly scented as the sweetest Violet. Tufted Pansies do not run out like the Pansy, but may be left year after year in the same bed.

Mixed Colors. Pkt., 10c; $\frac{1}{8}$ oz., 39c; $\frac{1}{2}$ oz., \$1.15.

Penstemon—Blue Gem

A fine little perennial Rock Garden plant, very dwarf, and of a rich blue color. Sure to grow and bloom anywhere. Pkt., 10c; $\frac{1}{8}$ oz., 42c.

Mrs. Fred Kopplin, Green Lake, Wis., writes: "I ordered all of my flower seeds from you this spring, and have strong and healthy plants."

Mrs. Rice Harrington, 69 Diamond St., St. Albans, Vermont, writes: I got 40 thrifty Petunia plants from my pkt. last year. They bloomed plentifully all summer, and such large blooms. One plant in my window box had blooms as large as a saucer. Only six plants were single. Our house is a corner log and many folks stopped and some even came to the porch to admire them.

Haines Giant Exhibition Pansies

Haines Giant Exhibition Pansies

A Mixture of Large Flowered Varieties and Unusual Colors

This mixture contains all my varieties and a great many more shades, tints and combinations of colors, and is unsurpassed in variety of coloring, marking, veining, etc. The flowers are all of mammoth size, unusually heavy substance, presenting a bold, open face, most are five, some three blotched; some are ruffled and a large number very fragrant. Mixed Colors. Pkt., 10c; $\frac{1}{8}$ oz., 55c.

HAINES BEAUTIFUL PETUNIAS

Giants of California

A California Variety of Great Beauty, Size and Luxuriance

The flowers are of immense size, often measuring 5 to 6 inches across. The variety of colors, markings, veinings and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. With the exception of Haines Invincible Petunia, this is the finest Petunia ever grown. Equally desirable in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. Pkt. 12c.

Star of California

Velvety Purple Shaded Crimson, with a Star-Shaped White Blotch

This is an outstanding variety of the Balcony type, but with the size and beauty of the California Giants. For window boxes, hanging baskets, and vases, this is what you have been waiting for. The stems are almost completely covered with rich purplish flowers, which are glorified with a sheen of crimson; but the crowning feature is the pure white star in the form of a blotch in the throat of each blossom. The branches are extra long, and hang over the edge of the box or vase, presenting a beautiful appearance. Pkt. 12c.

Painted Daisies

The Most Gaily Colored Flowers Grown

NEW SINGLE HYBRIDS. Large, bright and showy, daisy-like flowers ranging in colors from white and light pink to deep red with bright yellow centers, blooms in spring and again in the fall. The flowers are invaluable for cut flowers being borne on long stems and lasting a long time. The foliage is most elegant in its finely cut, fern-like form and fresh deep green color. Nothing surpasses these flowers for profusion of bloom during the season and being so easily grown they ought to have a place in every garden whether large or small; height 2 feet. Hardy perennial. Pkt. 10c; 1/8 oz. 36c; 1/2 oz. 98c.

NEW DOUBLE HYBRIDS. Hardy perennial; large double beautiful flowers, resembling a refined China Aster. Height 1 1/2 ft. Pkt. 10c.

Rose of Heaven

Rose of Heaven

Rich Brilliant Rose Color with an Inconspicuous White Throat

A clear rosy pink flower of good size and very beautiful. The throat is nearly the same color as the petals, very few having the white throats so common in most pink Petunias. While not as large a flower as my wonderful Balcony Queen Petunias shown on page 19, they are much larger than the Rosy Morn, which we have all known and grown for many years. A bed of Rose of Heaven Petunias is unusually attractive, and as they remain in bloom all summer, gives a delightful touch of color to a yard that might otherwise be dull and dreary. Pkt. 10c; 1/8 oz. 48c; 1/2 oz. \$1.40.

Haines Mammoth Flowered Invincible

The Largest and Most Beautiful Petunia Ever Grown

An entirely new class—distinct from any others in the exquisite colorings, and in the general appearance of the flowers. These must be seen to be appreciated as all are fringed and fluted in every conceivable manner. This is without question the largest, prettiest and most wonderful Petunia ever grown. Equally desirable in pots in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. The colors are startlingly brilliant—some solid colors, but mostly a combination of colors never seen before in one flower. All of my seed is hand picked, and selected from the largest and heaviest frilled flowers showing the finest colorings. Pkt. 15c; 4 Pkts. 50c.

Three New Petunias

One packet each of the three for only, 54c, postpaid.

BLUE BEE. An outstanding variety and a wonderful variety to use in any location where Petunias are grown. Flowers are of medium size and of a rich dark blue color. There are so few worth while blue flowers that my new Blue Bee will be a welcome addition especially in the so popular "Blue Gardens." Pkt. 12c; 1/8 oz. 44c.

DOUBLE ROSY MORN. Just what you have been waiting for. The true Rosy Morn color in a double flower. Flowers are of medium size semi-double with heavy petals and heaviest frilled flowers showing the finest colorings. Pkt. 15c; 4 Pkts. 50c.

folding back from the center. Almost resembles a Gardenia in shape, while the color is of course that unmatched shade of rose-pink. Pkt. 20c; 3 pkts. for 50c.

THEODOSIA. So many have asked for this popular variety that I am now listing with my other "Better varieties." Large flowers of rosy-pink with clearly defined golden center with minute stripes. Flowers are heavily frilled or ruffled. Pkt. 20c; 3 pkts. 50c.

Fancy Fringed Double

My Double Petunias Have Made Me More Friends Than Any Other Flower I Grow

A mixture of the best large flowering and fringed double Petunias. It embraces a wide range of colors and shows finer combinations than we have heretofore found in any double Petunias including delicate mauve, porcelain blue, white, garnet and velvet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other. Pkt. 14c.

New Golden Rose

Brilliant Orange Rose Color, with a Lighter Shade of Yellow in the Throat

This unusual color surely deserves a place with the finest novelties, as it is entirely different from any I have ever grown or seen. The orange rose color is the same throughout the flower, except that the throat is a lighter shade of yellow. In size, it is about the same as the other out of doors bedding varieties, with which we are all familiar. Its color is its greatest charm, and I can confidently recommend it to all. Pkt. 12c; 1/8 oz. 44c.

Petunia Theodosia

Haines Fluffy Ruffles

Fluffy Ruffles

Beautiful Colors—Heavily Frilled and Ruffled—Large Size—Easy to Grow—Sure to Bloom

The originators of this wonderful strain of Petunias claim that the flowers will average 4 to 6 inches in diameter, but I am content in claiming a size of about 3 inches. However, the flowers are so heavily frilled that a blossom 3 inches in diameter is often 20 inches or more in circumference. Fluffy Ruffles commences to bloom very early, and continues in flower all through the summer until frosts kill the plant to the ground. Easily cultivated. All you need is a good soil and sunny location. Pkt. 12c.

PETUNIAS—Continued

World Beauty Petunia

New Double Pink Fringed

It produces large double fringed flowers of the most beautiful rosy carmine color, plants of dwarf compact growth and which makes this grand new sort particularly desirable for pot plants as well as bedding. Petunia growers will, we believe, do well to culture "World Beauty" in a large way. Packet 50c.

New Dwarf Giants of California

Mammoth Flowers and Beautiful Colors, with Throats Veined and Marked in Every Conceivable Manner.

All are Heavily Frilled and Ruffled

Here we have the same mammoth flowers and marvelous colors, we have grown to like so well in the original of this type; this being a dwarf strain of the well known Giants of California. Flowers are of the largest size, heavily frilled and ruffled, and are well opened showing off the beautifully veined and marbled throats to perfection. The plants are so very dwarf that they may also be grown as pot plants with the best of results. For porch boxes and for bedding my Dwarf Giants of California are unequalled. Pkt., 15c.

Single Flowered Bedding Petunias

There is nothing prettier than a bed of Petunias all of one color. They are especially adapted, not only for use on the lawn, but for porch boxes, hanging baskets and other similar places. I offer what I have found to be the most suitable.

HOWARD'S STAR. This is a beautiful old rose color with a well defined star-like stripe radiating from the throat to the edge. Pkt., 7c; $\frac{1}{8}$ oz., 42c; $\frac{1}{2}$ oz., \$1.25.

NEW ROSY MORN. This Petunia is unequalled for porch boxes, hanging baskets, etc.; color is a very pretty soft carmine pink with white throat, also makes a fine display when grown in masses in the flower bed. Pkt., 8c; $\frac{1}{8}$ oz., 46c; $\frac{1}{2}$ oz., \$1.35.

SNOWBALL. Dwarf, compact plant with pure, satiny white flowers of good size which literally cover the plant during the entire season. Pkt., 6c; $\frac{1}{8}$ oz., 41c; $\frac{1}{2}$ oz., \$1.25.

STRIPED.—A very showy sort, the flowers being beautifully striped and blotched in a variety of colors. Pkt., 6c; $\frac{1}{8}$ oz., 38c; $\frac{1}{2}$ oz., \$1.15.

COLLECTION.—One packet each of the four beautiful bedding Petunias described above for only 23 cents.

HYBRIDA SINGLE.—This mixture is composed of many colors and is a very fine bedding variety. Good Mixed. Pkt., 5c; $\frac{1}{8}$ oz., 32c; $\frac{1}{2}$ oz., 95c.

Mrs. Alice M. Russell, R. 2, Hillsdale, Ill., writes: I got my double Nasturtium from you. Wish to say they were fine, everyone just raved over them. When frost came they were still loaded with blooms and full of buds and such blooms. I could pick a hundred at one time.

New Balcony Queen Petunias

Large Flowers—Solid Colors—Startlingly Attractive

A splendid free-flowering type of Single Petunias, growing about 12 inches high, with flowers averaging 3 inches across; of special value for windows or porch boxes and vases, but equally effective in beds or borders. The Balcony Petunias may be depended upon to supply an unsurpassed floral effect until frost. While most of the Balcony Petunias have straight edges, my new Pride of Portland is beautifully fringed.

PRIDE OF PORTLAND—The Fringed Balcony Petunia. A decided sensation in Balcony Petunias, being exquisitely fringed. This variety comes from Oregon, and is of a beautiful rose-pink color. Pkt., 12c.

BALCONY QUEEN (Rose)—Bright rose flowers with white throats. A profuse and continuous bloomer which grows quickly and luxuriantly. Pkt., 10c; $\frac{1}{8}$ oz., 78c.

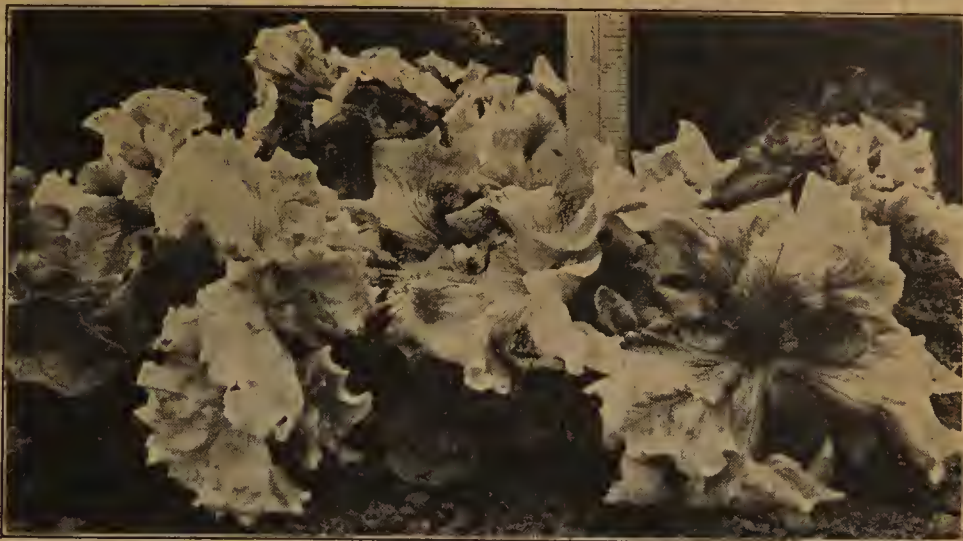

BALCONY QUEEN (Dark Red)—A clear bright scarlet red color. One of the finest. Pkt., 10c; $\frac{1}{8}$ oz., 78c.

BALCONY QUEEN (Purple)—The darkest of all, and unusually showy and attractive. Pkt., 10c; $\frac{1}{8}$ oz., 78c.

BALCONY QUEEN (White)—A magnificent pure white. The flowers are not only very large, but are borne abundantly, blooming until frost. Pkt., 10c; $\frac{1}{8}$ oz., 78c.

COLLECTION—One packet each of the five Balcony Petunias listed above for only 46 cents.

BALCONY QUEEN (Mixed Colors)—The above and other colors carefully blended to make an attractive display. Pkt., 10c; $\frac{1}{8}$ oz., 72c.

BUILD A BEAUTIFUL ROCK GARDEN**The Most Important Feature of a Flower Garden**

RIGHT **WRONG**
These cross-section views show the right and wrong way to lay up rocks.

Everyone is talking Rock Garden these days—lots of my friends and customers are building them. Even on the small lot there is some place where a tiny rock garden may be tucked away; the compactness of a rock garden is one of its charms. There is no end to the interesting combinations of rocks and plants. Pygmy mountains, Lilliputian valleys, can be built of rugged rocks; a trickle of water pretend a mountain torrent, losing itself in a mirror pool.

A spot in full light and air, away from shade trees, is best. Any slope, too, can be used. Transforming into a rock garden is often the happiest treatment for a slope. Take advantage of any outcrop of natural rock about your grounds.

Make your rock garden a reproduction of nature in miniature. Strive for natural surroundings for rock-loving plants. While there is charm in unusual layouts, orderly arrangements of rocks and planting are most pleasing. Your rock garden may be just a wall, or large enough for ridges, valleys and even bogs. Picture the finished form before starting construction. The plan may be anything fancy dictates but when possible it should have steps and paths about it. Irregular paths are most interesting, with walks following the valleys.

Perennial Plants (grown from seed) are the most satisfactory as they last forever, while a few annuals for quick show are often desirable.

The following is Mrs. Haines suggestions of Pretty and Desirable Perennial and Annual Flower Seeds, also Hardy Perennial Plants, that will make a Beautiful Rock Garden at a very moderate cost.

Double Sweet Pea

Haines New Double Sweet Peas

Instead of One Standard There Are Two or Three, Giving a Ruffled or Double Effect

I have no hesitancy in offering this unique Sweet Pea to my many friends, as it has real merit, and is worthy of a place in every garden. Grows readily, climbs nicely and flowers easily. How to Grow Sweet Peas

Locate planting where there will be uninterrupted sunlight, in as good soil as possible, thoroughly mixed with well rotted cow manure. Seed should be sown before the first of April if weather will permit, about 6 inches down in the trench, and covered with an inch of firmly pressed soil. Thin out to 2 to 4 inches apart and a little soil may be drawn in to give greater depth to the roots. Vining support in the form of brush, chicken wire or taut strings should be supplied at the time of sowing. Water sufficiently, pick often to ensure continuance.

Read These Letters and be Convinced of Haines Fine Quality Seeds and Plants

Mrs. I. M. Hill, 1953 Evelyn Ave., Memphis, Tennessee, writes: I am well pleased with the Golden Gleam Nasturtium. I believe every seed came up, and although I did plant rather closely the bed has been wonderful and everyone to whom I showed the flowers were surprised as not many in this section have planted them, but I am sure many more will be planted next season. They have been much admired. We all enjoyed these new variety of nasturtium.

Wonderful Weather Plant

The Unique Floral Barometer

If the leaves stand upward from the twig, the weather will be beautiful. If they stand out straight, changeable weather is expected. As the leaves droop, the indications range toward rain, when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves, and a fog by the bending of the twigs. Seeds are of good size and sometimes slow to germinate; should be soaked in lukewarm water before planting. Pkt., 10c; $\frac{1}{4}$ oz., 24c; oz., 72c.

Weather Plant

Mrs. Maude Woodring, Route 1, London, Ohio, writes—The Petunias and Poppies were certainly unsurpassed with their wonderful colors and long blooming period. I have confidence in your seeds and that you may depend on me as a customer always.

Mrs. Julia C. Martin, 336 N. Linda Rosa Ave., Pasadena, California, writes—In my last year's order I had Regal Lily Seeds, the result was 47 plants out of a 15c pkt. I am waiting results, as I transplanted them last fall. I have had very good luck with all my seeds I purchased from you.

HAINES NEW DAHLIA FLOWERED ZINNIAS

Monstrous Flowers; Wonderful Colors; Continuous Bloomers

Zinnia---Haines Giant Balloon Flowered

Large Double Flowers of Unequalled Colors and Beauty

An entirely new class of Zinnias, giant in size, measuring 4 to 5 inches across and perfectly double flowers, of richest, most varied colors and shades. Few flowers are more easily grown or bloom more abundantly throughout the season, and the wide range of color is no less remarkable than their unusual depth and richness. Plants grow 3 feet high. There is much satisfaction in a bed of Zinnias with their twisted and recurved petaled flowers in many bright colors and when nearly every other flower has been killed by frost this plant is still in full bloom. Pkt. 10c; 1/4 oz. 25c; oz. 75c.

Dahlia Flowered Zinnia

The plants are strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches deep, similar in shape to the Double Decorative Dahlias.

EXQUISITE. Light rose color with a deeper colored center; the flowers resemble a dahlia in form and size. This is one of the most attractive colors grown. Pkt. 10c; 1/8 oz. 45c.

GOLDEN DAWN. (New.) An attractive and beautiful golden yellow of good shape and largest size. Everyone admired it in my gardens last summer. Pkt. 12c; 1/8 oz. 48c.

MONARCH. The largest and best of the red shades. Plants are strong growers, and are covered with the beautiful large flowers throughout the season. Pkt. 15c; 2 pkts. 25c; 1/8 oz. 48c.

ORIOLE. An immense orange and gold bi-color; the color changes gradually as the plant ages, but presents a magnificent appearance at all times. Pkt. 10c; 1/8 oz. 45c.

POLAR BEAR. A large pure white. True form and one of the best. This always comes the true dahlia flowered and is the finest white Zinnia I have ever seen. Pkt. 10c; 1/8 oz. 45c.

ILLUMINATION. (New.) A deep rose color. Does not burn or fade. Lasts well when cut. Pkt. 12c; 1/8 oz. 48c.

Collection.

One pkt. each of the above six separate varieties of Dahlia Flowered Zinnias **60c**

MIXED COLORS. Those whose gardens are not large enough to grow the separate colors will find in this mixture a fine assortment of colors. Pkt. 12c; 1/8 oz. 45c.

California Giants Zinnias

Haines California Giants Zinnias

Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. I have grown flowers fully 5 inches in diameter. Plants are of a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear numerous semi-globular mostly very double flowers on long, strong stems, all of the largest size, making them of great value in large beds, borders, etc., grown under favorable conditions they remain in bloom from early summer to late autumn. I offer the colors separately, as well as a splendid mixture of many colors.

LEMON QUEEN. This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. Pkt. 10c; 1/8 oz. 39c.

ORANGE KING. This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. Pkt. 10c; 1/8 oz. 39c.

PURITY. Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. Pkt. 10c; 1/8 oz. 39c.

ROSE QUEEN. This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. Pkt. 10c; 1/8 oz. 39c.

Collection. One packet each of the four colors described above for only **35c**

MIXED. The above four colors mixed in equal proportion make a splendid show of bright colors. Pkt. 8c; 1/8 oz. 34c; 1/2 oz. \$1.00.

How to Transplant Annuals

When the seedlings crowd each other it is time to transplant. Water soil about plants several hours before transplanting. Move the seedlings on a dull day, or if sun is shining, cover with newspaper or flower pot after replanting so that tops will not dry out. Shorten the tops and water well.

Haines New Lilliput or Pom Pom Zinnias

This is a wonderful strain of Zinnias growing only 12 to 15 inches in height. They make beautiful little plants which are in bloom all summer until late in the fall. The colors are bright and cheerful, and the bushy little plants are fairly covered with tiny short stemmed flowers of small size, which always come perfectly double. The colors are well fixed and can be depended upon.

CANARY YELLOW. Just the right shade for a pleasing contrast. Pkt. 8c; 1/8 oz. 22c; 1/2 oz. 65c.

Mexican or New Star Zinnias

"THE ZINNIAS ARE BEAUTIFUL"

"Charles H. Pratt, Box 44, Aberdeen, Idaho, writes—The flowers grown from the seed I bought of you this spring are doing fine—perfect stands. The Zinnias are beautiful.

"MUST HAVE SOME MORE"

Mrs. James G. McColl, Bathgate, North Dakota, writes—I must have some more of your wonderful Double Mixed Petunia seed. The Petunia seed I received from you last Spring was just beautiful. Every one admired them.

"NOTHING LIKE THEM"

Mrs. A. Ringhofer, Box 75, Elmer, Minnesota, writes—Had your Swiss Giant Pansy seed last year and everybody thinks they are just wonderful and I myself think there is nothing like them. I am well pleased with all your seeds I have ever bought from you.

"EVERY SEED CAME UP"

Mrs. Tilford Rucker, Box 38, Vera, Oklahoma—I had the loveliest Petunias and Snapdragons last year that I ever saw. I got my seed from you and I believe that every seed I planted must have come up. My Petunias looked like purple velvet and the Snapdragons were almost every color you could think of.

New Picotee

Every Petal Beautifully Tipped

A remarkable and beautiful new type of Zinnias developed in California. The flowers are always of the largest size, measuring 4 to 6 inches in diameter. The blooms come in many bright colors—pink, light and rich yellow, orange, etc., and all are tipped rich mahogany brown on the end of each petal. Pkt. 10c; 1/8 oz. 24c; 1/2 oz. 72c.

New Picotee Zinnia

Victory Quilled or Cactus Flowered

Attractive Petals so Tightly Curled as to Resemble Quills

It is distinct from all other Zinnias by the shape of its petals which are tubular at the base and expand towards the tip, displaying a rich variety of color. On the reverse side of the petals the color runs into a softer tint, making a beautiful combination. All colors mixed. Pkt. 10c; 1/8 oz. 28c; 1/2 oz. 84c.

Victory Quilled Zinnia

Mexican or New Star

An Unusual Variety of Single Star Shape Flower

This new and beautiful flower is the only Zinnia ever grown which comes absolutely single and when open shows the true star shape. It is peculiar in its construction; not double, not single—as the word is usually interpreted—nor yet could it be called crested. It must be seen to be appreciated. Flowers are of good size, usually 2 inches in diameter and of good intense colors. Nearly every color known is there from crimson to white, beside color combinations. Petals are rich and velvety, and appear almost artificial in their perfection. Plants are dwarf, and hold the flower stem erect, presenting a beautiful appearance. Pkt. 8c; 1/8 oz. 24c; 1/2 oz. 75c.

Bulbs are safely stored over winter in dry sand.

The plant makes a beautiful and rare addition to any home or garden; they grow any place in the sun or shade. A four-year old bulb grows a plant about 3 to 4 feet tall. It makes this growth in about 45 days after coming out of ground; a great novelty.

Culture of Gladioli

Gladioli may be planted as early as danger of frost has passed and after the ground has become warm. This time will vary in different localities. One will be safe to plant at the time the petals fall from the fruit tree blossoms.

If a succession of bloom is desired, plant the bulbs at intervals of one week to ten days apart, until about the middle of June. Bulbs should be planted about four inches deep and from six to eight inches apart, depending upon the space available.

Cut the flower spike when the first bloom has just opened. The best time to cut bloom is in early morning or in the evening when the sun's rays are not intense. And when cutting, leave at least four perfect leaves on the plant to mature the bulb.

A full exposure to the sun is best. It is not well to plant near buildings, under trees or shrubbery where they will be shaded. "Glads" may be planted in front of shrubbery, etc., if they are set far enough away so the roots of the shrubs will not rob the bulbs of the necessary moisture and nourishment.

Any soil that will produce vegetables, or a good growth of grass or weeds, will grow good "Glads." Work the soil to a depth of about eight inches until it is fine and mellow.

Artificial fertilizers may be used if desired, but they should be used sparingly. Bone meal or a good potato fertilizer may be used. If stable manure is utilized, only that of WELL ROTTED character should be used. And all fertilizers should be thoroughly mixed with the soil.

Philodendron

"The Wonder Vine"; Also Known as Devil's Ivy

We cannot say too much in praise on the value of this vine for use in fern dishes, wall pockets, baskets or any place where anything else will not thrive. For fern dishes, plant a sufficient quantity in dish and pin the vine to the soil with greening pins and it will root at every joint and form a compact mass of green heart-shaped leaves. Give it a trial and see for yourself. Everyone knows the value of English Ivy in the home, yet the Philodendron surpasses it by far. Price, 35c each; 3 for \$1.00, postpaid.

It stands the dust and dry air of cities admirably. Strong plants 20c each; 3 for 50c, postpaid.

ENGLEMAN'S IVY (Englemanii)—A desirable variety with clinging tendrils by which it will climb walls or trees and cling as close as the Boston Ivy. The foliage resembles Quincefolia, but is more dense. Strong plants, each 20c; 3 for 50c, postpaid.

CLEMATIS

The Clematis we offer this season are extremely fine, strong 2-year-old plants. Many failures in the growing of Clematis are the result of too shallow planting. The crown of the roots should be set at least 3 inches below the surface of the soil. On account of the brittleness of the bark on Clematis, it cracks very easily, which, however, does not harm it in the least.

Rose Growing Made Easy

Don't Bother with Budding or Grafting. Briar is Always a Nuisance.

With roses on their own roots, there is never any of this trouble. Should the bush be cut down by frost at any time and the roots not harmed, real rosewood is again produced in the spring. On the other hand, many amateurs have set out to plant a rose bed and secured the best of budded stock but in a year or two have had only briars for their trouble. STRAWBERRIES

NOTICE—All varieties marked (S) are Staminate Perfect Flowering and Bi-Sexual varieties. All varieties marked (P) are Pistillate and destitute of Stamens. Therefore when planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed; much finer fruit will be obtained by so doing.

For example—If your order calls for 200 Great Ruby (P) you should also have 100 Great Northern (S) to properly fertilize the bed. Plant the first two rows with Great Ruby (P) and the third row with Great Northern (S) and so on; or you can use any other (P) and (S) varieties in the same manner.

MONEY IN STRAWBERRIES

A strawberry Bed is a safe and sure investment. Greatest of all Money Makers. \$600.00 profit per acre. Only one expense—the cost of plants, which is merely nominal—lasts for years.

Everbearing or Fall-Bearing Strawberry

A dish of luscious strawberries in the fall is a luxury which everyone who owns a garden could enjoy. Plant at least twenty-five plants, but if you can spare the room plant 100 or more. Keep all blooms picked off in the spring and do not allow the plants to bear regular crops in June, thus conserving their strength for the fall crop.

Strawberry Plant Orders

will be shipped direct from our Strawberry Farms and cannot be shipped with other goods. Send your orders in early and they will be filled in rotation just as early in the spring as possible.

WHEN WE SHIP STRAWBERRY PLANTS—In this locality Field Grown Strawberry plants are ready for shipment in April. We can also make fall shipments if desired. How to Have a Beautiful Lawn

Our lawn grass seed produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, deep and elastic turf, is generally ready for mowing in six weeks from time of sowing and is composed of a thoroughly balanced combination of native and foreign fine-leaved, deep-rooting grasses of interweaving habit, that flourish under varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward free from clumps is maintained from snow to snow without burning brown in the hot months of summer. A lawn may be established either by "sodding" or "seeding." The latter is not only much less expensive but much more satisfactory, as better grasses can thus be obtained, and the quality and variety of the grasses have a great deal to do with appearance and the permanency of the lawn.

Shady Place Lawn Grass Seed

THE VERY BEST OBTAINABLE—CAREFULLY BLENDED—YOU CAN HAVE A BEAUTIFUL LAWN WITH VERY LITTLE WORK, BY USING OUR WELL BALANCED MIXTURE

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf-growing, evergreen varieties which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently "sour" and if the drainage is defective it is apt to be covered with moss and coarse bog grasses. In such cases an application of slake lime, at the rate of one bushel to each thousand square feet, or 40 bushels to the acre, is an excellent corrective and sweeter, but the moss should be first removed.

Price, postpaid, 1/2 lb. 40c; lb. 70c; 3 lbs. \$1.85. By express or freight, not prepaid, 5 lbs. \$3.00; 10 lbs. \$5.75; 15 lbs. \$8.00; 25 lbs. \$13.50.

Combination Lawn and Garden Invigorator

The Marvelous Lawn Tonic—The Wonder Fertilizer—The Unequaled Garden Medicine.

Made in Rockford—This Is Not an Experiment But Has Been Used for Years with Excellent Results.

Extensive experiments have convinced us that this unequalled Fertilizer or Garden Invigorator is the most wonderful product of its kind ever offered. This last season we have given it final and exhaustive tests, which have proven beyond a doubt that it should be used in every State in the Union. No matter for what purpose, or under what conditions it was used, the results were always the same—simply marvelous.

A Petunia Bed, with our combination Invigorator sprinkled lightly on the soil, showed an increase in size of the flower, and more brilliant colorings. Vegetables planted in poor soil in July when others were well started towards bearing, not only made heavier yields, but matured almost as soon as the earlier planted garden. Lawns with an application of 25 pounds to 1000 square feet grew heavier sod of a richer color, and were still as green on December 1st as in the Summer time. Keep a bag on hand always. You will need it almost the year round. Packed in 3 size bags to meet all requirements. Shipped by Express or Freight at buyer's expense. 25 lbs. \$1.65; 50 lbs. \$2.60; 100 lbs. \$4.25.

PLANT SHIPMENTS—I always recommend having plants sent by Express, when there is an Express Office near, as I can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by Mail). Kindly write your list of plants, bulbs and roots all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. *I do not ship plants to Canada and foreign countries.*

[illegible]

Please Notice—Owing to Quarantine Restrictions we Cannot Ship Fruits, Shrubs or Plants to Arkansas; we Cannot Ship Oranges or Lemons to California, Florida, Mississippi or Texas.

Please order nothing but plants and bulbs on this sheet

CALIFORNIA GIANT ZINNIAS

Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. I have grown flowers fully 5 inches in diameter. Plants are of robust habit, attaining a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear numerous semi-globular mostly very double flowers on long, strong stems, all of the largest size, making them of great value in large beds, borders, etc., grown under favorable conditions they remain in bloom from early summer to late autumn. I offer the colors separately, as well as a splendid mixture of many colors.

ALL POSTPAID

LEMON QUEEN. This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. Pkt. 10c; $\frac{1}{8}$ oz. 39c.

ORANGE KING. This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. Pkt. 10c; $\frac{1}{8}$ oz. 39c.

PURITY. Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. Pkt. 10c; $\frac{1}{8}$ oz. 39c.

ROSE QUEEN. This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. Pkt. 10c; $\frac{1}{8}$ oz. 39c.

COLLECTION

One packet each of the four colors described above for **35c** only 35c.

MIXED. The above four colors mixed in equal proportion make a splendid show of bright colors. Pkt. 8c; $\frac{1}{8}$ oz. 34c; $\frac{1}{2}$ oz. \$1.00.

GIANT DAHLIA FLOWERED

Crimson Monarch Zinnia

Marvelous Blooms of Immense Size

The remarkable results obtained with this improved type of the popular flower, by thousands of our pleased patrons, has fully substantiated the claims advanced by us, for the New Dahlia-Flowered Zinnia is undoubtedly a majestic and beautiful flower.

The plant is striking and spectacular in appearance and distinguished for its vigor and sturdy growth, reaching a height of from 3 to 4 feet. The large magnificent blooms that greatly resemble Decorative Dahlias and average from 4 inches or over across, are borne on strong stems, clear of foliage, which makes them very desirable for cut flowers as well as garden decoration. It is indeed a valuable acquisition.
